

Project Scoping Questionnaire

Preliminary Data Questionnaire
Please use any convenient units but make clear what they are

Client Details			
First Name		Last Name	
Job Title			
Address			
Email address		Mobile Number	
Website			

AD Plant Information			
How many sites is CCm technology applicable?		If you have more than one site available but you want to focus on one site first, please specify which site	
AD Plant Type Please tick boxes that are appropriate	Food Waste <input type="checkbox"/> Municipal <input type="checkbox"/> Local Authority <input type="checkbox"/>	Farm Waste <input type="checkbox"/> Crop Based <input type="checkbox"/> Animal Manure <input type="checkbox"/> Please specify type of animal or crop waste based in the box below ↓	Sewage Sludge <input type="checkbox"/>
Other (Please detail)			
Amount of digestate in tonnes Please state the output of digestate from your AD		Digestate Moisture Content Please specify moisture content of digestate	
PAS110/PAS 100 Certification [?] Click question mark for more info	Yes <input type="checkbox"/> No <input type="checkbox"/> Please specify if PAS110 or PAS100 below ↓		
Analysis of material	Yes (please attach) <input type="checkbox"/> No (Material to be sent to CCm for analysis) <input type="checkbox"/>		
Do you have required permits to sell formulated fertiliser or compost?	Yes (please attach) <input type="checkbox"/> No <input type="checkbox"/>		
NB: If you have an MEB showing materials used in the digestate, please attach and share.			

Thermal Energy	
Available Waste Heat	Yes <input type="checkbox"/> No <input type="checkbox"/>
Form of Waste Heat	CHP <input type="checkbox"/> Biomethane Plant <input type="checkbox"/> Available dryers <input type="checkbox"/>
	Other (please specify below) ↓ <input type="checkbox"/>
Amount of available excess heat in MWe	
Do you have an energy balance that can be shared	Yes <input type="checkbox"/> No <input type="checkbox"/>

Environmental Benefits	
Preferred outcomes <small>(Please tick all that apply)</small>	Make climate friendly formulated N P K to sell <input type="checkbox"/>
	Decrease mass and volume of biomass <input type="checkbox"/>
	Achieve Carbon neutrality <input type="checkbox"/>
	Recover ammonia from waste streams <input type="checkbox"/>
	Recover phosphorous from waste streams <input type="checkbox"/>
	Recover other nutrients from waste streams <input type="checkbox"/>
	Maximise thermal efficiency e.g. recover heat <input type="checkbox"/>
	Replace existing bought in fertiliser <input type="checkbox"/>
	Utilise CO ₂ emissions <input type="checkbox"/>
	Activate carbon credits <input type="checkbox"/>
Any specifications regarding material blends and nutrient levels in desired final product? Please state.	
Do you currently receive revenue for proposed material?	

Plant Delivery Logistics			
Project Date Estimation			
Funding Options	Internal <input type="checkbox"/>	External <input type="checkbox"/>	
Do you currently receive revenue for proposed material	Yes <input type="checkbox"/>	No <input type="checkbox"/>	Specify Price £
INTERNATIONAL CUSTOMERS ONLY (See Below)			
What are the local fertiliser market pricing for comparison?			
What are the local regulatory requirements for proposed material?			
What is the classification of the proposed material?			

Notes (Please detail anything of importance that will enable CCm to best help you)

**Thank you very much for filling out this form
CCm will be in touch with you soon to discuss the
potential for collaboration**
