

**15-1-1 + 61% Organic Matter (C)**

#### Pack Size

- 1000kg big bags

#### Benefits

- **1t of CCm** provides the equivalent of **3t of Organic Matter**
- **Performance equivalent to Ammonium Nitrate**
- **80% less surface runoff** vs Ammonium Nitrate
- **Improves microbial activity of up to 75%**
- Reduces in-field N<sub>2</sub>O emissions.
- Promotes increased root growth
- Ensures healthy and fertile soils

#### Nitrogen and Spreading

- Nitrogen is directly available for plant uptake
- Spreads accurately from 24m – 36m subject to spreading machine

#### Product Specification

|   |        |                            |                |
|---|--------|----------------------------|----------------|
| <b>Total N</b>                          | 15%    | <b>Bulk Density</b>        | 0.6-0.7 kg/l   |
| <b>Total P<sub>2</sub>O<sub>5</sub></b> | 1%     | <b>Pellet Size</b>         | 6-9mm/variable |
| <b>Total K<sub>2</sub>O</b>             | 1%     | <b>Colour</b>              | Brown Pellet   |
| <b>Total SO<sub>3</sub></b>             | 0.5%   | <b>pH</b>                  | 7-8            |
| <b>Total CaO</b>                        | 1.5%   | <b>Carbon</b>              | 16%            |
| <b>Total MgO</b>                        | 0.3%   | <b>Organic Matter</b>      | 61%            |
| <b>C:N Ratio</b>                        | 5.3 :1 | <b>Solubility in water</b> | Hydroscopic    |
